

Regional Energy Network

Tri-County Regional Energy Network

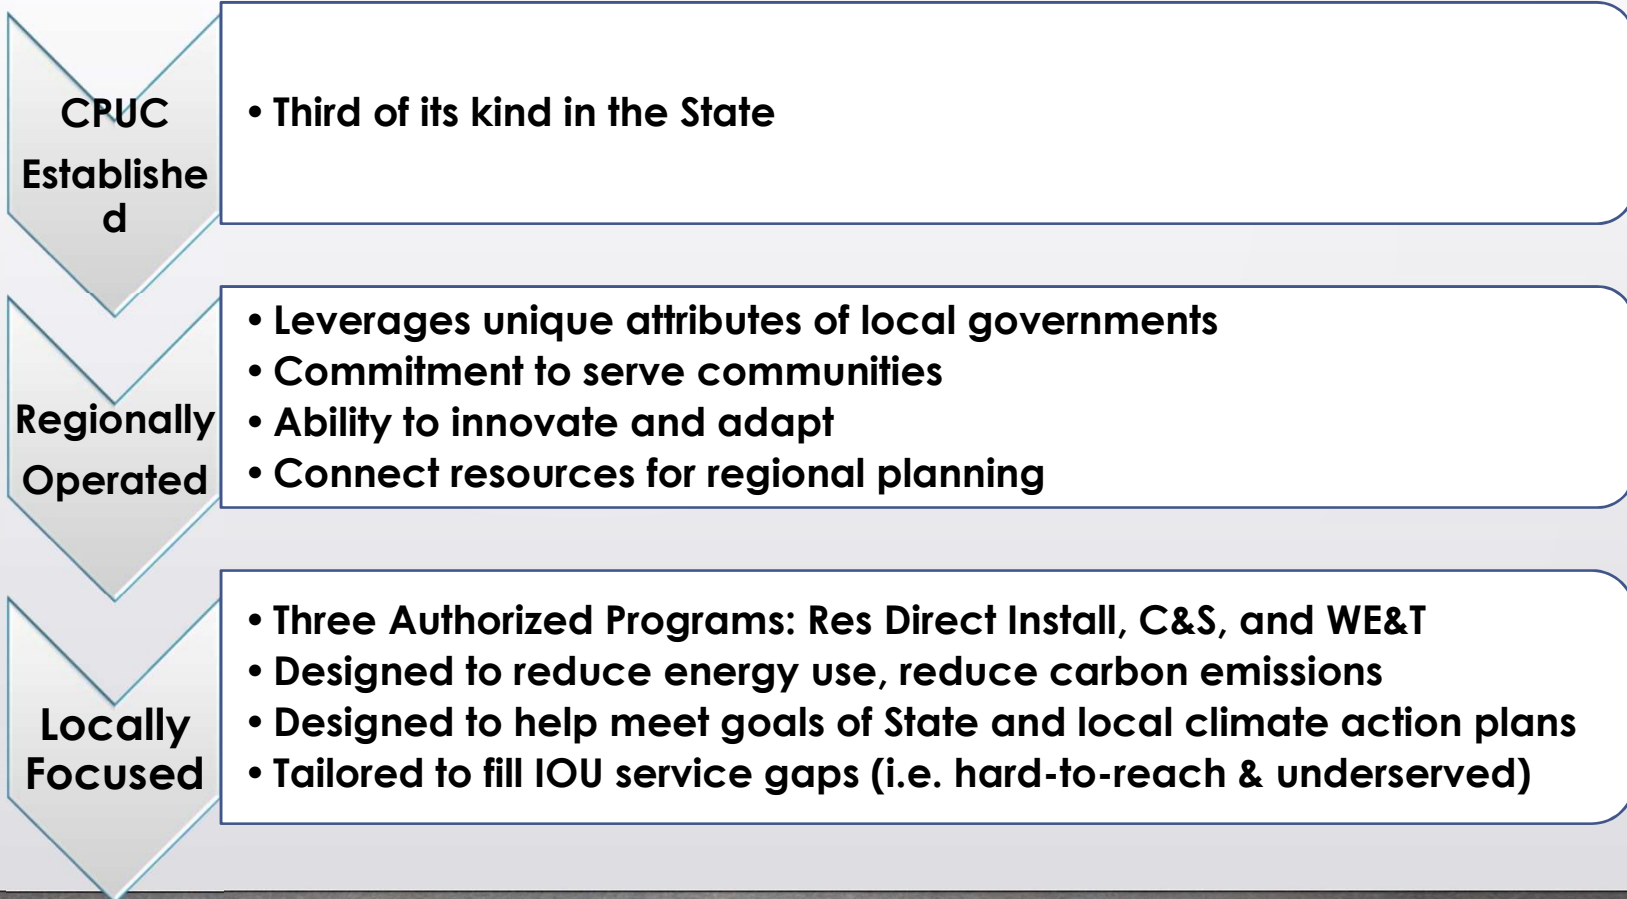

Ventura, Santa Barbara, & San Luis Obispo Counties

What is a REN?

REN is a carefully coordinated regional partnership among the Counties of Ventura, Santa Barbara, and San Luis Obispo formed to best utilize ratepayer dollars for regional energy efficiency programs to meet the needs of local residents, building departments, and building professionals.

How did we get the REN?

Three Authorized Programs

3C-REN will launch EE programs mid-2019:

**Workforce,
Education, and
Training (WE&T)**

For building
professionals and
building departments

**Codes and
Standards (C&S)
Compliance**

For building
professionals and
building departments

**Residential EE Direct
Install (RES DI)**

Single and Multi-family
residential units

Tri-County Economy

Enhance
the
Energy
Sector:

- **Train local workforce**
 - **Bring resources to our smaller business**
- **Invest dollars back into local communities**
- **Prepare for energy emerging technologies**

Connecting the dots

- Electric Vehicle Blueprint
 - Set up for infrastructure and outreach on EV purchases
- Resiliency/Energy/Climate Action Plans
 - Prepare and implement strategies to adapt to our changing energy infrastructure
- Public Health
 - It also means healthy homes

Questions
